For manufacture of medicated swine feed only

ACTIVE INGREDIENT:

Tiamulin (as hydrogen fumarate): 10 g/lb

INGREDIENTS:

roughage product, mineral oil

See reverse side for use directions, cautions and warnings.

NADA 139-472, Approved by FDA

Net Weight: 35 lb (15.9 kg)

Denagard[®] 10
(tiamulin)

Medicated Premix

Type A Medicated Article

For use in animals only.

Store in a dry place.

Indications	Directions	Amount of Denagard 10 Per Ton	Tiamulin in Complete Feed Per Ton	Withdrawal Period (days)
For treatment of swine dysentery associated with <i>Brachyspira</i> (formerly <i>Serpulina</i> or <i>Treponema</i>) <i>hyodysenteriae</i> susceptible to Tiamulin	Feed continuously as the sole ration for 14 days	20 lb	200 g	7
For control of porcine proliferative enteropathies (ileitis) associated with <i>Lawsonia intracellularis</i>	Feed continuously as the sole ration for not less than 10 days	3.5 lb	35 g	2
For control of swine dysentery associated with <i>Brachyspira</i> (formerly <i>Serpulina</i> or <i>Treponema</i>) <i>hyodysenteriae</i> susceptible to Tiamulin	Feed continuously as the sole ration	3.5 lb	35 g	2

WARNING:

Observe withdrawal time shown in table above. Keep out of reach of children. Avoid contact with skin. Direct contact with skin or mucous membranes may cause irritation.

CAUTION:

Do not feed undiluted. Do not use in feeds for animals other than swine. The effects of tiamulin on swine reproductive performance, pregnancy and lactation have not been determined.

CONTRAINDICATIONS:

Swine being treated with Denagard (tiamulin) should not have access to feeds containing polyether ionophores (e.g., lasalocid, monensin, narasin, salinomycin and semduramicin) as adverse reactions may occur. If signs of toxicity occur, discontinue use.

Restricted Drug (California): Use only as directed.

For more information or to report adverse effects, call 1-800-637-0281.
